

About 5 years ago, Mike put an addition on our house. During our 1st meeting, I was describing to Mike what I wanted and he drew a picture of exactly what I wanted. I was impressed and sold!

During the construction, things went very smoothly. Mike and his crew were professional and prompt during the months of work. We actually began having breakfast with the crew!

The finished job is unbelievable. The rooms we added (living room, dining room and master bathroom) are beautiful and exactly what we imagined. The best part is it looks like it's always been part of the house - not an addition.

Mike has stood by his work - coming back at any point if we had a question or concern. We highly recommend Mike's work and would be willing to talk to anyone in person for a recommendation. The Conroy Family
