

Hi Mike!

“ We fell in love with our home immediately after seeing it for the 1st time. Mike Pomarico obviously made the extra effort in adding perks to our home that otherwise, would have been a typical house... tray ceiling, kitchen shelving, storage above fireplace, convenient attic access, light switches wired for ceiling fans, etc. He was obviously thinking ahead and anticipating the needs of our family.”

“ Shortly after we moved in, we had several days of continuous, heavy rain. As a result, a pool of water began to gather in what is a pretty level backyard. After calling Mike, he had his workers and equipment there immediately, to smooth out the area and prevent the pool from forming again in the future.”
