Dear Michael,

I am pleased to let you know how happy I am with the remodel and reconstruction of my home in the Town of Newburgh. Your help and experience from the first day I looked to purchase this house to completion was exceptional.

Your idea for a new design of what was a simple ranch house, to a modern, comfortable, and efficient new home was amazing. Your foresight and ability to make it happen was why I decided to take on such a large project.

From dealing with the initial issues at the Town building and zoning departments to final clean up and obtaining a C.O. at completion, you and your crew did an excellent job.

Now that some time has passed since your work has ended I am happy to know you are still here to deal with any questions I may have, and your willingness to resolve any details that may need attention.

I just want you to know that I am very grateful to live in such a nice home and thankful for your skills.

Sincerely,

James J. Distefano Jr.
