

We first met Mike when we bought a spec house from him in 1998. It was a wonderful house and an opportunity to get to know a man that quickly earned our respect and admiration, and later even friendship. As we had more children, we eventually outgrew that house and needed something bigger. We knew who we wanted as our builder.

Mike designed and built our beautiful custom home in 2003. His knowledge, dependability and wonderful personality made it such a pleasurable experience for us. So many people complain about the stress and chaos of building a home, but this was never the case with Mike. He is very organized and detail-oriented so our project ran smoothly and was completed on time, within our budget. Mike has integrity and stands behind all his work and this is evident in the finished product. If we ever decided to build or remodel again, Mike Pomerico is the only person we would consider.
