

Michael F. Pomarico Co. LLC

Mike Pomarico built our home in 2003 in Marlboro, New York.

We were planning to build a home for more than five years and could not decide what type of home we wanted. We were recommended by friends to go to Mike. We were told he builds one of the best quality homes in our area. We went to Mike and spent endless hours trying to decide what style of home we wanted. Mike worked hours on drafting plans based solely on ideas we had. Finally, he took us to one of his homes in Marlboro and we fell in love with our dream home. After many hours of drafting plans we ended up going with a house he had already built and modifying it.

The entire building process was amazingly perfect. Every bump in the road was overcome by Mike with poise and grace. He built us a gorgeous home with no problems. Not only does he build a quality home but he is an amazing communicator and was consistently available for us no matter what time day or night we called him and trust me we called him many evenings at home with questions. He always answered his phone and if he was not available he always called us back timely.

When building a home it is not only the quality of the work but just as important is the customer service from the minute you start your idea to forever. We are still calling Mike after 5 ½ years of being in our home with questions on minor things.

We would highly recommend Mike and his team of builders to everyone.

EXCELLENT QUALITY, CRAFTSMANSHIP AND PERSONAL SERVICE!!!!!!!

Keith and Lauren Minard
