

Hi Mike,

Congratulations on your new website.

"It was a genuine pleasure dealing with Mike during all phases of the construction of our home in 1998. After having discussed our building plans with other general contractors, we selected Mike for many reasons. He listened closely to what we wanted in a new home and then made suggestions for improvement. As a result, Mike was able to save us tens of thousands of dollars in construction costs. We'll always remember when he cheerfully walked the undeveloped site with us in foot-high snow as he presented a mental picture of where the house would best be situated and what it would look like. As we made our frequent visits to the site when the house was going up, we communicated change orders (more windows, lighting locations, etc.) to Mike. He was always flexible with our requests and no order was too tall for him to handle, all with a genuine interest in satisfying us. The house was completed in the time span Mike promised it would be done and the way in which it would be done. During the entire process, there was never a problem contacting Mike -- if he wasn't available to answer our call, he always made certain to get back to us as soon as possible.

"After we moved into our new home we reviewed the "punchlist" of minor things to be taken care of with Mike and he delivered promptly on all of them. Since then, we have kept in contact over the years and we can truly call Mike a friend. We are very happy with our home, not only with the physical appearance of it, but also the quality craftsmanship that went into it and the high level of personal service we received from Mike. In our experience as owners of several previous homes, we felt a level of comfort dealing with Mike that didn't exist with other contractors. Most importantly, we were impressed with Mike's integrity -- he is a man of his word and totally honest. We would not hesitate in recommending Mike to anyone who is interested in building a new home."
