

We purchased our new home from Michael in 2000. He was a pleasure to work with and very professional. We moved in just 6 months from when they started clearing the land, just as promised! He has stood behind his work and has rectified any problems we had immediatly. We would highly recommend Micheal Pomerico for your building needs. We were very pleased with the process of building, Micheal was always available to answer questions during the build and after. We love are home, it was truly a joy to build with Micheal!
