

We built our home in 1994 and from our first meeting to today, Mike has been there for us. He designed our beautiful home based on nothing more than our vision, stayed on budget and finished construction on time as promised. After almost 15 years in our home, the quality and the craftsmanship shows through every day. Mike makes himself available even now and after all these years, we consider him a friend. Unlike the "nightmares" you hear about other builders, Mike makes the process of building your dream home an exciting and pleasant experience.

Talk to you soon.
All the best,
Vicki
